AI Engineer

Final year Computer & Data Science student with practical experience across the AI/ML stack — from exploratory data analysis and deep learning model development to LLM orchestration, RAG applications, and API-based deployment. Experienced in fine-tuning LLMs, evaluating AI systems, and documenting experimental findings. GPA 3.90/4.0.

WORK EXPERIENCE

FlyRank AI **06/2026 - Present**

Backend AI Engineer • Internship

- Implemented AI-driven workflow automation tools, improving productivity by 25%
- Developed production-grade AI agents, reducing token costs by 15% through workflow and prompt optimization

Freelance **01/2019 - Present**

Personal & Academic Tutor • Freelancer **Jakarta, Indonesia**

- Taught mathematics, physics and chemistry (IGCSE & IB).
- Building a student performance tracking system using modern web technologies and AI implementation.

Calvin Institute of Technology **06/2026 - 08/2026**

AI Research Intern • Internship **DKI Jakarta**

- Focused on developing LLM-based agentic orchestration systems for Q&A workflow
- Evaluate AI systems with meaningful metrics
- Optimize AI workflows and token usage up to 20% for production deployment

EDUCATION

Calvin Institute of Technology

Bachelor's degree in Computer Science • GPA: 3.9/4.0 08/2023 - Expected 08/2027

Pelangi Kasih

High School Diploma in IPA 01/2022 - 01/2023

SKILLS

Technical Skills

- Deep Learning
- Exploratory Data Analysis
- Fine-Tuning LLMs
- LLM
- Machine Learning
- Model Evaluation
- RAG
- Reinforcement Learning

Language & Softwares

- Docker
- FastAPI
- GitHub
- Pandas
- Python
- Pytorch
- Scikit-learn
- SQL

Soft Skills

- Active Listening
- Analytical
- Attention to Detail
- Critical Thinking
- Problem-Solving
- Project Management
- Teamwork
- Time Management

PROJECTS

AI Journal Paper Summariser | Langgraph, LLM, RAG 04/2026 - Present

- Developed a LLM-driven application that summarizes journal papers into a PDF report
- Fine tuned a LLM model using quantization and LoRA with supervised fine tuning and reinforcement learning on llamafactory
- Reduced literature review time by ~40% in internal testing

Plantatio | Langgraph, RAG, Knowledge Graph 05/2026 - 05/2026

- Fine-tuned LLMs with Supervised Fine Tuning and Reinforcement Learning using LoRA on LLaMA-Factory and Unsloth.
- Evaluate models using RAGAS framework and custom metrics on AI workflow.
- Integrated AI workflow pipeline with FastAPI and Frontend, enabling end-to-end model serving

Smart Traffic Incident Detection | PyTorch, OpenCV 12/2025 - 04/2026

- Created a real-time CCTV smart incident detection system using CNN model approach to reduce manual incident monitoring efforts.
- Conducted EDA on 100+ videos of real-world surveillance to identify class distribution and document augmentation strategy.
- Applied a CNN hybrid model approach compared to base model, improving accuracy score by 7% and precision by 3%.

Car Damage Classification, Detection and Captioning | PyTorch, OpenCV, Ultralytics 11/2025 - 12/2025

- Curated and trained a multi-stage deep learning model to detect the car damage, localize the car damage if present, estimate the severity of the damage as well as provide captioning, with 1000+ images of car damages.
- Built a CNN-based localization model, improving accuracy by 9% and precision by 3% over the baseline
- Conducted exploratory data analysis to identify class imbalance and inform augmentation strategy, documenting findings and model comparisons in a technical report.

AWARDS & SCHOLARSHIPS

1st winner in Technofest UBM 2026 06/2026

Calvin Institute of Technology

Rector's List 2025 11/2025

Calvin Institute of Technology

Rector's List 2024 11/2024

Calvin Institute of Technology

VOLUNTEERING & LEADERSHIP

Calvin Institute of Technology 01/2025 - 01/2026

External Coordinator Jakarta, Indonesia

A coordinator for the external relations team completing two seminar programs and two tutorial programs that covers basic python programming and data structure & algorithms class. My responsibilities include managing seminar and tutorial programs. Results are an increase in student engagement up to 10% compared to last year team.

Yayasan Pondok Indah Kasih 05/2025 - 07/2025

Staff of "Mobil Pintar" Program Jakarta, Indonesia

A staff member of the Pondok Kasih Foundation on the "mobil pintar" program. Taught the children, increase social media awareness through documentaries up to 20%, and work with other staff members.
